

Carlos M. Ramseyer

Ruby Developer

About me

Rails dev with 9 years of experience, focused on performance, safe production delivery, new features design, and recent experience leading a dev team.

Experience

- Apr. 2021 – **Rails Dev**, MajorKey Technologies. <http://www.majorkeytech.com>.
 - Present Advisor Financial Dashboard app. Project with multiple work-streams. Lead Ruby dev in a team. On-boarded new members. Coordinated cross-team development. Worked on several performance optimization tasks in a 2.5TB Postgres database. Collaborated with Product Owners identifying feasibility and lack of definitions in Backlog. Reported code risk analysis before production releases and defined rollback plans. Wrote team guidelines for PR Reviews, Backlog Grooming meetings, and how to tackle complex dev tasks.
- Feb. 2019 – **Rails Dev**, IT Crowd Argentina. <http://www.itcrowdarg.com>.
 - Mar. 2021 Resources search engine app. Built from scratch. AWS, Elasticsearch, user roles features, async notifications, dashboard with charts and statistics, chatbot with AWS Lex.
 - Medical appointments app. Legacy. Multiple API integrations.
- Feb. 2014 – **Rails Dev**, Fontela Cristales. <http://www.fontela.com.ar>.
 - Feb. 2019 Glass manufacture system from scratch. Features to track product manufacturing through multiple factory stages making possible having real time order statuses, completion percentage and centralized information for workers, administrative staff and management.
- Sep. 2011 – **Tester**, Neoris. <http://www.neoris.com>.
 - Feb. 2013 Manual testing

More experience details in www.ramseyer.com.ar.

My stack

Ruby on Rails, Postgresql, Elasticsearch, RSpec, Capybara/Selenium, Redis, Sidekiq, WebSockets, Docker, AWS, CircleCI, AWS Lex.

Portfolio

- Glass Demo <http://162.243.107.4/> (User: curriculum, Password: cv1234)
- Github <http://github.com/cmramseyer>

Education

- 2004 – 2013 **Information Systems Engineering**, UTN Rosario (Incomplete).

Languages

- English Upper intermediate, fluent.
